BIOLOGICAL LABORATORIES

Dear Josh - Thanks a great deal for  
your letter about Arnold. Things are in  
a rush here right now, but I shall write you  
at greater length in a week or ten days.

I barely stir out of Rochester, so I  
don't quite know when I'll be on the fly  
than the midwest, but I do Sunday here  
& visit Wisconsin. I am not going to Idaho,  
Sad to say, but I do have to go to CSH this  
June for the meetings. Program looks really  
good in most (but not all) sessions. I was  
informed as alternate status for GNR transferred  
by MATS. Path, having said, surely will not let  
me travel by air except by commercial lines.  
Too bad, I thought MATS would be an  
interesting experience.

Very best regards,  
Ken
